## We enable better business decisions

Compuscan is a trusted credit bureau and information services provider. We collect, provide and protect quality data. We overlay this with intelligent insight to better serve our clients. Through our extensive product offering, we enable companies to identify, acquire, manage and reward their customers and educate their workforce.

We aim to make businesses more profitable by minimising their risk and illuminating windows of opportunity. We also empower individuals to better manage their financial health.

## We create solutions that add value across the customer life cycle

We provide powerful, accurate, comprehensive data on consumers and businesses, supported by a range of value added products and services.

### Information and Credit Services

We collect data, make sense of it and present it in a format that enables quick, consistent decisions and minimises risks.

### Decision Analytics

We put big data to work. We combine data, analytics, modelling and software into every step of the decision-making process.

### Marketing Services

Our data enables us to provide deeper customer insight in order to create more profitable engagements with new and existing customers.

### Loyalty and Rewards

We build and implement loyalty programmes that can help you better know and reward your customers.

### Academy

Our specialised credit academy offers training programmes that address your skills requirements.
